PROJECTS

EC2 instance from a custom Amazon Machine Image(AMI) (03/2020 - 04/2020)
- Amazon Elastic Compute Cloud (Amazon EC2) provides scalable computing capacity in the Amazon Web Services (AWS) Cloud.So non-technical companies can focus more on productivity rather than infrastructure.

Static HTML website (04/2019 - 05/2019)
- A static website consists of a series of HTML files, each one representing a physical page of a website.

On premise migration in cloud (08/2020 - 10/2020)
- Establishing and running a data center is expensive. You need to purchase the right equipment and hire technicians to install and manage the center. When you shift to cloud computing, you will only pay for the services procured.

SQL Database (05/2021 - 07/2021)
- Project allows you to manage such items as SQL and query files and database objects easily.
